

ENGLAND ATHLETICS REGISTRATION 2020/21

Track & Field specialists will miss most if not all of the competitive season for summer 2020.

They may still need to be registered for indoor events during the winter.

Endurance runners must be registered if they are:

- included in club squads for major road or cross country relays;
- entering for major XC championships (North East, Northern, National);
- entering some UKA licensed road or XC races.

We can save the club money by not registering athletes not coming under the categories above.

Let us know by 31 August whether you do or do not wish to be registered.

Reply to mike.bateman@btconnect.com.

Paid up members who let us know by then that they do not wish to be registered will be eligible for a discount on their 2021 club subscription.
